

Wärtsilä Case Study

CDM/Projects

What our client said:

“The experience of Pentagon Assurance was invaluable in maintaining the sites 100% record of zero lost hours over the last few years, in what was a series of complex decommissioning and transfer activities achieved to schedule.”

Adrian Sumner, Project Manager

Wärtsilä

Wärtsilä is a global leader in innovative technologies and lifecycle solutions for the marine and energy markets. Pentagon Assurance was recommended by a long term partner in machine logistics management.

Sector

Marine / Power

Location

Greater London

CDM Project

Wärtsilä was keen to ensure the site closure would be conducted with particular emphasis on employee and contractor safety. Pentagon Assurance were able to impart vast experience of decommissioning projects which, with a change of scope in the project, became a valuable resource in supporting key activities.

Pentagon Assurance maintained a firm approach to safety but also recognised the need for flexibility to respond to the needs of the day, and short notice requirements due to the reduced lead time for the transfer and closure of the site.

The support of Pentagon Assurance ensured on time completion of the works with the HSE record maintained up to the end of the sites operational and decommissioning activities.
